SERVICES WE OFFER

Formulation & Prototype

We design custom formulas and develop initial prototypes to ensure your product is effective and ready for the real world.

Manufacturing

We transform approved prototypes into high-quality finished goods, utilizing our dedicated production area for large-scale excellence.

Branding & Identity

Our creative team builds your brand logo and guidelines, making sure your product looks as good as it works.

Packaging & Compliance

We handle everything from machine-proof development to market-specific label checks, ensuring your boxes and blisters are retail-ready.

Regulatory & Export

We manage the complex paperwork, including export documentation and compliance checks, to get your product across any border.
